

Welcome to STRUCT {STUDIES}; where structured support meets academic ambition.

What began as a senior-led initiative to help juniors has evolved into a dedicated platform tailored to make university exam prep seamless and focused.

# What does our website offer?

## Unit-Wise Video Lectures

*Structured Learning at Your Pace.* Dive into unit-wise video lectures crafted for clarity and depth across various subjects. These videos break down complex topics, making it easy to build a strong understanding, one unit at a time.

## PDF Scans of Topper Notes

*Access to High-Quality Notes.* Study from the best! Our PDF scans bring you top-notch notes from top-performing students, packed with insights and exam-ready explanations to streamline your preparation.

## Past Year Question Papers

*Practice with Real Exam Questions.* Prepare confidently with a wide collection of previous year question papers (PYQs) for both sessional and university exams. These papers help you get familiar with exam patterns and question styles.

## Extra Docs & Assessments

*Boost Your Knowledge with Extras.* Go beyond the basics with additional documentation and assessments tailored to enhance your understanding. These resources provide deeper insights and a way to test your knowledge effectively.

# Let's Meet our team

**Saumya Sharma**

I am a web developer skilled in React, Redux Toolkit, Node.js, Express, and MongoDB, focused on building dynamic and responsive websites tailored to meet specific requirements. With a strong passion for web development, I am a creative and quick learner, always striving to craft innovative solutions that enhance user experiences.

**Shiv Sablok**

I am passionate about research and its transformative potential, driven by a curiosity to solve complex problems with structured solutions. As I am on to my web development journey, I aim to combine my research-oriented mindset with creative design and problem-solving skills. With expertise in data collection and management, I strive to build impactful and efficient solutions.

**Jeetu Singh**

I am a fervent full-stack software developer with a deep passion for SEO and troubleshooting. I specialize in building user-friendly, responsive websites that not only offer seamless user experiences but also address real-time challenges. I am committed to creating impactful solutions that bridge the gap between technology & user needs.

**Prince Kumar Singh**

I am a full-stack developer skilled in React, Node.js, and database management, dedicated to building efficient and scalable web applications that enhance user experience. Known for my consistency, discipline, and commitment, I strive to deliver high-quality solutions while continuously improving my craft.
